

Attention Vehicle Owner/Operator!!

The Baltimore Police Department is working with residents to help fight crime! Here are some useful tips that can help you protect your vehicle:

- **Turn off your engine**
- **Do not leave your key or key fob inside the vehicle**
- **Always lock your vehicle doors and trunk**
- **Park your vehicle in a well-lit area**
- **Always remove valuables from within your vehicle**

***Never leave an unoccupied vehicle running - to include warming your car or going inside a business or residence**

The Maryland Transportation Article TA 21-1101 prohibits an operator of a vehicle to leave a vehicle running and unattended. Police will issue a citation to the owners/operators of unattended vehicles, so turn your engine off, remove your key/key fob and lock your car.

**This is a public service announcement brought to you by:
The Baltimore Police Department, Reginal Auto Theft Task Force and your
Neighborhood Police District.**
